jpastorm.dev

Backend Developer with more than 5 years of experience, involved in planning and creating microservices and defining best practices.

EXPERIENCE

Falabella bank, Backend Integrations developer — Sept 2025 - Present

- I work on backend integrations that support the creation and management of credit cards, ensuring stable communication between internal systems and external services.

Tech Stack: Redis · PostgreSQL · Docker · API RESTFUL · SQL · Microservice · Go.

DEUNA, Freelancer Backend Integrations developer — Jun 2025 - Sept - 2025

- I integrated payment gateways with Telcel's services, implementing their proprietary TCP protocol and ensuring reliable processing of inquiry, recharge, and payment flows.

Tech Stack: PostgreSQL · Docker · API RESTFUL · TCP · SQL · Microservice · Go · Lambda AWS.

Infosys USA, Backend Software Developer — Jun 2024 - Sept - 2025

- I work with an international team at the company ALTICE that is in charge of telecommunications in the United States

Tech Stack: Redis · PostgreSQL · Docker · API RESTFUL · GRPC · SQL · Microservice · Go.

Rappi, Backend Software Developer — May 2022 – Mar 2024

- I worked on maintaining legacy code, refactoring, and developing new readable code that helped the team stay scalable and productive when building new features.

Tech Stack: Redis · PostgreSQL · Docker · API RESTFUL · Kafka · SQL · Microservice · Go.

AveOnline, FullStack Software Developer — Dec 2021– May de 2022

- Developed vue.js components, implemented new UI features, and fixed bugs. My constant feedback to the team, attention to detail, and quick adaptation to the project's technology stack helped the company move quickly with the project.

Tech Stack: Vue.js · MongoDB · Apache Kafka · Linux · PostgreSQL · Docker · API RESTFUL · Go

EDTeam, Backend Software Developer — Jan 2021 - Nov 2021

- Achieved a 40% reduction in code and logic complexity by analyzing the refactoring and optimization of the core microservice code.

Tech Stack: Linux · CRM · PostgreSQL · API RESTFUL · Go.

Freelancer Full Stack Developer, Jan 2020 - Dec 2020

- During my time at university, I developed applications for pharmacies, local municipal treasuries, stores, and also a plagiarism detection system for my university's office

Tech Stack: Linux · PostgreSQL · API RESTFUL · Go · Javascript · Reactjs · PHP

SKILLS

Programming Languages and Databases: Go, Python, PHP, Java, PostgreSQL, MongoDB, and Redis.

Frameworks and Tools: Kafka, gRPC, Git, Docker, Javascript(nodejs, react and vuejs), Linux, Clean Code, AWS.

Languages: Intermediate B2: English; Native: Spanish.

EDUCATION

Bachelor's Degree: System Engineering – Universidad Privada de Tacna – 2021

CERTIFICATIONS

Go Concurrency - EDTeam - 2021

Scrum Foundation Professional Certificate - SFPC - CertiProf - 2020
